Introduction

Bristan products are made from premium materials that are built to last, to give it that added personal touch we hand polish all of the products to give it that high quality shine. In this pack you will find products and a cleaning guide which will help you keep that sparkle in your kitchen and bathroom.

This product is designed for use with Chrome finishes. If you wish to clean products that are gold, rose gold or other special finishes, we recommend that you use warm soapy water only and dry the product with the Micro fibre cloth supplied with this kit.

Pack contents

- 1 x Kilrock Bathroom Spray Gel Descaler 500ml
- 1 x Kilrock Blast Away Mould Spray 500ml
- 1 x Micro Fibre Cloth

General Cleaning

Once your product has been used, dry it with a soft cloth. Your taps or shower should be regularly cleaned with warm water, a mild pH-neutral liquid soap and polished with the microfiber cloth supplied with this kit. This is gentle yet effective cleaning without scratching.

Any residues from soap, toothpaste, shampoos and shower gels can cause blemishes if not rinsed straight after use.

Avoid using abrasive cloths, scouring pads, scrub sponges, steel wool or anything similar. Some surfaces such as nickel and pewter may be affected by the dye found in some cloths, so it is also important to avoid hanging cloths on spouts too.

Using The Descaler

If you live in a hard water area you may be all too familiar with limescale, the unsightly build up that can take hold of your taps and showers. Limescale can be difficult to remove due to it being a build up of calcium carbonate and residue left by hard water. To remove any build up of limescale on any product, use the supplied spray gel descaler locally to the area of limescale, as per the directions of use on the back of the supplied container.

If you would like to know if you live in a hard water area please visit our website www.bristan.com/hard-water-map for more details.

Using The Mould Spray

To keep your bathroom bright and clean, we recommend Blast Away Mould Spray. This will remove mould and mildew from tiles and ceramics. The direction for use can be found on the back of the supplied container.
